Wavin A-Pex

F1960 Brass Cold Expansion Fittings

Specification Sheet

Overview

The intended use of the product is for installation in hot and cold potable water distribution systems using PEX SDR 9 tubing manufactured against ASTM F876 or CSA B137.5. Verify Pex tubing markings and specifications for compatibility and approval for its use with cold expansion fittings (ASTM F1960).

For potable hot and cold water distribution, use the Wavin A-Pex cold expansion brass fittings with tubing designed for potable water distribution such as Wavin A-Pex.

Technical Data

Material:

Brass copper alloy C69300, meeting the requirements by ASTM F1960.

Continuous working pressure: 690 kPa - 82°C / 100 psi @ 180°F 1103 kPA - 23°C / 160 psi @ 73°F

Standards

Made to the dimensional, material and performance requirements of ASTM F1960, ASTM F877 and CSA B137.5

Listings

Listing holder: Zhejiang Wanderkai Fluid Equipment Technology Co., Ltd. with IAPMO

CSA B137.5; ASTM F1960

'Lead free' or 'low lead' conformance with state laws and U.S. Safe Drinking Water Act

NSF/ANSI/CAN 61 Compliant

Precautions

Wavin A-Pex Brass Cold Expansion Fittings

- Should not be painted
- Should not be exposed to cleaners, chemicals, solvents or glues
- Should always be stored in clean, preferably lined bins or containers
- Cannot be used in compressed air systems
- Ensure there are no oils in rough-in compressed air tests
- Should not be installed in concrete or under a slab
- Shall be joined by Pex reinforced rings meeting the requirements of ASTM F1960
- Male pipe threads must only use PFTE tape as a thread sealant
- Should not be exposed to direct ultra violet light
- Do not use soap or detergent solutions for leak detection
